PROFESSIONAL SUMMARY

SOC analyst candidate and career changer with hands-on training in Splunk, threat and IOC analysis, and incident response. Volunteer cyber-defense lead for a nonprofit of about 230 volunteers. Previously spent six years as a federal officer spotting threats, documenting incidents, and making rapid risk decisions under pressure. Open to SOC internships and entry-level security roles.

EDUCATION

B.S. in Information Science (Cybersecurity Concentration), CUNY SPS

Expected June 2028

A.A.S. in Computer Programming, Wood Tobe-Coburn

CERTIFICATIONS

CompTIA Security+ (2026) • CompTIA CySA+ (2026) • Splunk Core Certified User (2026) • Google Cybersecurity Certificate (2026)

TECHNICAL SKILLS

Security Operations: Alert triage, IOC identification, threat hunting, incident response

SIEM & Detection: Splunk, ELK (Elasticsearch/Kibana), Suricata IDS, Sysmon, Sigma rules, MITRE ATT&CK

Analysis & Systems: Log & packet analysis, vulnerability scanning, cloud security (AWS); Windows Server, Linux, Active Directory

Tools & Scripting: Wireshark, Nmap, Nuclei, OpenVAS, Burp Suite, Metasploit, Sysinternals; Python, Bash, PowerShell

TRAINING & COMPETITIONS

Bloomberg x The Knowledge House CTF 2026, 1st Place (team Ctrl_Alt_Defeat)

[View Write-ups](#)

Cleared all 27 web-exploitation levels of a CTF built by Bloomberg's Product Security team, covering JWT forgery, SQL and command injection, prompt injection, path traversal, and exploit chaining.

The Knowledge House, Cybersecurity Fellowship

Feb 2026 – Present

Per Scholas, Cybersecurity Analyst Program

Nov 2025 – Mar 2026

Competitions: DevSecCon25, Rank #5 (Python, APIs); picoCTF 2026.

PROJECTS

AI Phishing-Triage Automation

[View Project](#)

- Investigated a phishing scam (SPF SoftFail, a redirect chain) using MXToolbox, urlscan.io, and VirusTotal, then automated the investigation workflow with n8n and Claude.

Cybersecurity Engineering Lab Portfolio, The Knowledge House

[View Repo](#)

- Monitored Linux and Windows Server networks with Suricata IDS and Sysmon, and analyzed the logs to investigate suspicious activity.

EXPERIENCE

Mentor A Promise, Director of Cybersecurity Operations (Volunteer)

Jun 2026 – Present

- Lead cybersecurity operations for a nonprofit of about 230 volunteers across its Google Workspace and AWS environment, including role-based access management and BYOD security.
- Support day-to-day security monitoring, vulnerability management, and the development of incident-response playbooks and escalation procedures.

Customs and Border Protection Officer, U.S. Customs and Border Protection

Aug 2018 – Sep 2025

Queens, NY

- Screened travelers at a U.S. port of entry at a steady pace, about one every 30 seconds and 900+ per shift, deciding quickly who to clear and who to send for a closer look.
- Investigated suspicious activity using intelligence reports and behavioral indicators to identify threats and determine when escalation was required.

AFFILIATIONS & VOLUNTEERING

ALPFA (Association of Latino Professionals for America)

Jan 2026 – Present

Auxiliary Police Officer (Volunteer), NYPD

Feb 2017 – Sep 2024
